AMERICAN AUDIO®

www.adj.eu

Starting in 1985, as a supplier of lighting products to mobile entertainers, the Los Angeles-based ADJ Group has grown in to a diversified global enterprise which collectively provide lighting and audio products for home, architectural, stage, touring and mobile entertainment applications, as well as trussing for displays, events and stage productions.

With offices on five continents, the company has earned an international reputation for quality, reliability and unwavering loyalty to its retail partners. ADJ is still operated by its founders. With more than 250 employees the ADJ Group belongs to the world's largest entertainment electronics companies and continues to grow.

The company has also followed a philosophy of innovation, and has been responsible for many breakthroughs in the professional lighting industry. Designed with the end-user in mind, its products have been profitable sellers at a wide variety of retail outlets from independent specialty stores through the qualified ADJ partner network to major retailers like CPC, Conrad, Best Buy and Amazon.

Its products have also been specified for many major concert tours, including John Mayer, Bon Jovi and Brad Paisley as well as at high profile architectural application, such as the Luxor and Venetian hotels in Las Vegas, Royal Caribbean International's Oasis of the Sea (the world's largest cruise ship) and at major attractions like Disneyland and Universal Studios theme park.

With a proven track record of filling orders on time and standing behind everything it sells, the ADJ Group can help put any venue in lights!

MOVING HEADS

NEW!
VIZI CMY300

The Vizi CMY300 is ADJ's next generation LED Hybrid moving head. It uses a specially designed 300W LED engine that offers massive output for most large venues and event productions. It is a great hybrid utility fixture as it acts as a beam, spot and wash all-in-one with a massive zoom range from 8 to 46-degrees. This allows for designers to get maximum effects from one fixture without having to crowd truss in an installation with multiple fixtures. It also allows for less fixtures to be packed in a truck for production events. What's more, is it comes in a smaller footprint than most other movers in its class. Plus, the Vizi 300 CMY offers a CMY color mixing so designers can custom make colors to create a one-of-a-kind light-show.

The Vizi CMY300 offers motorized focus, motorized zoom, two rotating prisms (one 6-facet linear & one 3-facet circular), 2 GOBO wheels (1 wheel fixed metal & one wheel rotating/replaceable GOBOs) and built-in WiFly EXR wireless DMX. There is a full color function display on the front panel, with the rear panel offering PowerCON In/Out and 3-pin & 5-pin DMX connections. Under the hood, the Vizi CMY300 offers a modular design making servicing and GOBO replacement easier than ever before.

Specifications

FOCUS SPOT
THREE Z/ PEARL

The ADJ Focus Spot Three Z is a 100W LED Moving Head with motorized focus and motorized zoom allowing for a variable beam angle from 12-17-degrees.

In addition, ADJ has fitted the Focus Spot Three Z with one rotating GOBO wheel, one fixed GOBO wheel and one color wheel, letting users generate unique patterns and effects in a series of vibrant hues. There are two 6-facet prisms (one circular and one linear), enabling spellbinding multi-beam effects capable of filling wide spaces with color and movement.

VBAR PAK

Specifications

- Ultra bright, compact black Linear fixture with 5x 4-Watt, 4-IN-1 QUAD LEDs (RGBA)casts no RGB shadows
- Smooth RGBA Color Mixing (fast or slow Color change operation)
- Great as an architectural wall wash or for performance stages where traditional stage lighting emit a lot of heat onto performers
- 8 DMX Channel Modes: 1, 2, 3, 4, 5, 6, 7 or 8 channels
- 5 Operational Modes: RGBA Dimmer mode, sound active mode, static Color mode, auto run mode (3 auto run modes), and DMX Control
- Digital DMX Display with 4-button menu for easy navigation
- Stand Alone or Master/Slave Configuration
- Beam Angle: 40 degrees
- 15 built-in Color Macros
- DMX-512 protocol
- Color strobe effect
- Linkable via 3-pin XLR cable
- Electronic Dimming: 0-100%
- Flicker Free
- Adjustable mounting brackets; mount on a wall or set on the ground
- Long Life LEDs (50,000 hrs.)
- Power Draw: 21W Max
- IEC AC input and out put on the side of the fixture to Daisy chain the power cords (link up to 30 fixtures)
- Compatible with ADJ LED RC2 wireless infrared remote control up to 30 ft./ 10M (included in the pak)

- Multi-Voltage Operation: AC 100V-240V 50/60Hz
- Dimensions (LxWxH): 560 x 63 x 90mm
- Weight: 1.7 kg.
- VBAR Gig Bag inner dimensions (LxWxH): 560x165x90mm
- System Weight: 4 kg.

Softbags

Now there's an easy way for DJs and VJs to protect their lighting gear without breaking their budgets. Designed specifically for the mobile lighting market by a team with decades of experience in the industry, the case line covers a wide range of gear, from small lasers to centerpiece effects.
The stylish black cases, work with lighting gear from all major suppliers.

Made of durable synthetic material the soft, padded cases protect a DJ's investment in lighting by safeguarding fixtures against nicks, dings and scratches. This not only preserves the outward appearance of lighting effects, it also extends their useful life.

Secure „view windows" on nearly all cases make it easy to identify specific fixtures even after they've been packed. The cases' extra wide mouth design allows gear to be removed quickly and easily. Another convenient feature found in most cases is the secured zipped pocket for storing extra lamps, clamps and other accessories.

The cases offer an added benefit for performers on the go by allowing gear to be stacked without having to be boxed. This saves valuable transport space in cars and vans.

WiFLY RGBW8C

The WiFLY RGBW8C is a 64-channel RGB, RGBW, RGBA LED wireless DMX controller. It was designed to control any standard 3 or 4 channel group of LED fixtures where channel 1 is Red, channel 2 is Green, channel 3 is Blue and channel 4 is White or Amber. Up to 8 LED fixtures or fixture groups can independently be controlled via four fixture buttons. All LED fixtures or fixture groups must be set to run in DMX mode and be addressed four channels apart for independent control. The units control panel includes 9 direct access "Static Color/Chase" buttons, which contain pre-programmed Color presets and chase programs, 3 user programmable Color preset buttons, 4 multi function faders that control RGBW intensities on the fly, as well as chase program "Speed", chase program "Fade Time" and "Master Dimmer". There is also an array of 8 buttons used to select the operation mode, including RGB Fade, Auto Run, Color Macro, Chase, Sound Active, Strobe, Manual RGBW and Blackout modes. The WiFLY RGBW8C is one of the simplest and most versatile LED controllers available today. VPS SERIES

The American Audio VPS Series microphones were designed with singers, MC's and anyone who wants a good quality mic at a fair price in mind. Each VPS series mic has been acoustically tailored to outperform competitively priced microphones. From the least expensive VPS-20 to the VPS-80, our mics feature Cardiod and Supercardiod patterns for better feedback rejection while still retaining crystal clear audio properties in order to achieve higher gain levels before feedback. Great care has also been taken when designing the mic capsule, suspension and the barrel in order to help minimize handling noise while still remaining ergonomiclly comfortable and attractive.
